

## **2023-2024 Traveling Professors & Topics**

**William P. Adams, Jr., MD (2022-2024)**

**Caroline Glicksman, MD (2023-2025)**

**James Grotting, MD (2022-2024)**

**Christine Hamori, MD (2022-2024)**

**Patricia McGuire, MD (2023-2025)**

**Gabriele Miotto, MD (2023-2025)**

**Kiya Movassaghi, MD (2022-2024)**

**Foad Nahai, MD (2023-2025)**

**Ivona Percec, MD (2022-2024)**

**Louis Strock, MD (2023-2025)**

**William P. Adams, Jr., MD – Dallas, TX**

Topics - TBA

**Caroline Glicksman, MD, MSJ – Sea Girt, NJ**

Incorporating 3D Imaging into Your Practice

Optimizing Results in Revision Breast Surgery

Congenital and Acquired Breast and Chest Wall Asymmetry

Augmentation -Mastopexy: Single or Two Stage Procedures to Optimize Outcomes

The Inframammary Fold: How Do You Determine the Location in Breast Augmentation

High Resolution Ultrasound; Incorporating HRUS into your Plastic Surgery Practice

The Management of Patients with Textured Breast Implants- Transitioning from Texture to Smooth

BII- ASERF Self-Reported Symptoms in Women with Breast Implants Biospecimen Study

Work Life Balance

**James Grotting, MD - Birmingham, AL**

Demystifying the Facelift—Intraoperative tips to avoid complications

Rejuvenation of the Upper Face—My Transition from Endoscopic Browlift to Gliding Browlift

Rationale For Plication Lifting of the Midface and Jowl vs. The Deep Plane SMAS

Algorithm For Neck Rejuvenation—A Step by Step Introduction to the Deep Neck

Adjunctive Procedures to Enhance The Facelift Result

Primary and Secondary Augmentation Mastopexy

Easy and Predictable Breast Reduction and Mastopexy Using the Vertical Sculpted Pillar Technique

What Can Big Data Teach Us About Patient Safety in Aesthetic Plastic Surgery

Microsurgical Breast Reconstruction—A Personal Odyssey

Privilege, Planes, and Plans

**Christine Hamori, MD – Duxbury, MA**

The Aesthetic Female Genital Consultation: Inquiry to Surgery  
Technical Refinements of Labiaplasty  
Vaginal Rejuvenation: Noninvasive and Surgical  
Labia Majora Enhancements: Surgical and Non-surgical  
Complications of Female Genital Aesthetic Procedures  
Mastopexy Augmentation  
Perioral Rejuvenation: Laser, Fillers and Nano Fat

**Patricia McGuire, MD – St. Louis, MO**

Breast Implant Illness: Is it real? How to manage patients with system symptoms associated with breast implants.  
High Resolution Ultrasound for Plastic Surgeons: Incorporating it Into Your Practice (with demonstration)  
Cost Effective Revision of Cosmetic Augmentation  
Lowering the Risk of Revision in Primary Breast Augmentation  
BIA-ALCL: How it Changed my Practice  
Mastopexy/Augmentation: Is one or two stages better?  
How to Balance Practice with Life: Being a Plastic Surgeon/Parent/Life and Business Partner Without Going Crazy: What I know Now That I wish I knew 30 Years Ago

**Gabriele Miotto, MD – Atlanta, GA**

No Fear Blepharoplasty – Canthal Support Algorithm for Lower Eyelid Blepharoplasty  
Comprehensive Periocular Rejuvenation Based on Anatomy  
Facial Fat Grafting – Indications and Technique  
The Deep Plane Facelift – How to Get Started and Integrate It in Your Practice  
Lip Lift and Perioral Rejuvenation  
Facial Injectables and the Algorithm for Facial Harmonization  
Integrating Surgical and Non-Surgical Facial Rejuvenation Procedures

**Kiya Movassaghi, MD – Eugene, OR**

Shaping the Breast: Best Practices to Optimize Outcomes in Implant-Based Breast Surgery and Composite Augmentation  
Shaping the Breast: Optimizing Outcomes in Breast Revision Surgery (Implant Malposition, Double Bubble Deformity, Breast Asymmetry, Recurrent Capsular Contracture, Pectoralis Disruption, Symmastia)  
Shaping the Breast: Refining Augmentation Mastopexy  
Shaping the Breast: Augmentation, Augmentation Mastopexy, Revision and Reconstructive Surgery (2-hour course)  
Shaping the Breast: Breast Reconstruction: Non-ADM Based Pocket and Skin Envelope Management. An Algorithmic Approach  
Shaping the Breast: Smile Mastopexy in Managing Ptotic Breast Envelope in Breast Reconstruction  
U-SMASectomy Lift (USL): A Personal Evolution in Comprehensive Facial Rejuvenation  
Isolated Neck Lift: When to do it and its Limitations  
Lifting the Brow: Endoscopic, Modified Endoscopic, and Lateral Subcutaneous Browlifts  
Comprehensive Facial Rejuvenation Demystified: A 3 Level Approach to a Customized Rejuvenation of the Face (2-hour course)

**Foad Nahai, MD – Atlanta, GA**

Facelift  
Blepharoplasty

Brow Lift  
Facelift complications avoidance and management  
Blepharoplasty complications avoidance and management  
Neck Lift  
Managing the Dissatisfied Patient  
How to plan and write a manuscript for publication

**Ivona Percec, MD - Philadelphia, PA**

Nuances and Advances in Facial injectables  
Skincare for Plastic Surgeons  
Chemoexfoliation for Face and Body  
Facial Anatomy and Aging  
Rhytidectomy vs Injectables - When, How, and Why?  
Labiaplasty and Vulvar Aesthetics  
Female Genital Mutilation Reconstruction  
Fat Grafting: Science and Clinical Application of Adipose Tissue Therapeutics

**Louis Strock, MD – Fort Worth, TX**

Managing Patient Expectations in Breast Augmentation  
Breast Implant Selection: How to Simplify the Process and Make Sense of the Choices  
Control of the Inframammary Fold and Dual Plane in Breast Augmentation  
Transaxillary Breast Augmentation: How to Speed the Learning Curve  
Augmentation Mastopexy: Implant, Pocket and Tissue Support  
Approaches to Regain Control of the Implant Pocket and Optimize Breast Shape in Revision Breast Augmentation  
How to Build a Successful Practice and Enjoy Your Career: Mentors, Mentorship and Paying It Forward
